## **Rapporteur Group Reports (as needed)**

**Rapporteur Report ARG**

**Rapporteur Report HRG**

[AGENDA](#)

---

## **Open Action Items and Unimplemented Resolutions**

This is the "To Do" list for WG 9. Some are informal action items assigned to various participants. Some are formal resolutions, which are not yet implemented. Some items are simply in suspense awaiting action by other groups.

**AI-78-3:** WG 9 members should individually prepare to discuss WG 9 work items after delivery of Ada 202x. Examples could include: additional activities for the HRG along reliability and security lines; co-joining efforts with the real-time workshops in order to produce standards-related documents; adoption of SPARK and its environments into the WG9 scope.

Status: Open. As a result of discussion, we concluded that we can wait for a bit before deciding (but not longer than the period granted), in particular regarding the ARG and how they will interact with the community.

**AI-81-3:** Pat to get the WG 9 documents transferred to the ISO Documents facility.

Status: Open, pending resolution of retaining public free access to the documents in the official ISO document system. Not looking good at the moment...

**AI-82-2:** Alejandro to submit sections of TR 15942 to WG 9 as they become available.

Status: Open. Pat to look for a "mentor" to answer questions but not produce document text. Still looking.

**AI-86-1:** Pat to send email to determine exact date for June 2024 meeting. To be sent by end of 2023.

Status: Done.
